

What will be on the test

June 9, 2016 9:58 AM

MC /45 W /20

plate tectonics / boundaries

Earthquakes

⊕'s interior

Structure (folds, faults)

Volcanoes

Isostasy

mc	w	marks
10	3	= 13
12		= 12
4		= 4
7	11	= 18
12	4	= 16
	4	= 4

- depths of quakes at diff boundaries (trans, subd.)
- types of faults, stress associated, feature formed
- types of lava - pillow, aa, pahoehoe, columnar joints
- Ⓢquake waves
- ⊕'s layers
- volcano types
- lava tube
- mag vs intensity, scales
- lava flow vs sill
